REPORT

SEMINAR-ASSESSMENT OF THE EFFECTIVENESS OF ENVIRONMENTAL SANITATION IN THE CONTROL OF DENGUE

VENUE: SEMINAR HALL DATED: 19/10/19

RESOURCE PERSONS:

Dr.S.Saranya Sekar, MBBS

General Medicine

Dr.N.Nandha Kumar, MBBS, D.ORTHO

No. of students enrolled: 350

No. of students certified in our institution : 28

No. of students certified: 350

The seminar on qualitative research with Assessment of the effectiveness of environmental sanitation in the control of Dengue was held on october 19th, 2019 at JKKMMRF's Annai Sampoorani Ammal College of Pharmacy. The seminar was organized by the Department of Pharmacy, and a total of 350 students participated. The purpose of the workshop was to provide attendees with an introduction to the basics of qualitative research and to introduce them to the use of assessment of the effectiveness sanitation in the control of Dengue as a tool for analyzing and organizing qualitative data. At the end of the workshop, all attendees received a certificate of completion.

Objectives:

The main objectives of the seminar were to:

- Provide to control larval habitats, to reduce human-vector contact, to ensure prompt diagnosis of cases of fever.
- Provide an overview of the different types of qualitative data and how to collect and analyze them
- Introduce attendees to the use of assessment of the effectiveness of environmental sanitation in the control of Dengue software for organizing and analyzing qualitative data
- Provide attendees with the opportunity to practice using Assessment of the effectiveness of environmental sanitation in the control of Dengue through hands-on exercises

Respected Sir,

Subject: Letter for requesting Permission to Conduct seminar regarding:-

We Are writing this letter to request permission to conduct a seminar in the Seminar hall for one day 19/10/19. We wish to conduct the seminar on **Assessment of the effectiveness of environmental sanitation in the control of dengue**. We believe that this will be a very informative session that many students will wish to attend.

We request you to kindly permit to conduct training program as this would be a great opportunity for Students to learn all about **ASSESSMENT OF THE EFFECTIVENESS OF ENVIRONMENTAL SANITATION IN THE CONTROL OF DENGUE** that would help to shape the students.

Looking forward for your approval.

Thank you

Yours sincerely,

**Dr. N. SENTHILKUMAR,
PRINCIPAL,**

Circular

This is to inform all the students of our college that the seminar on Assessment of the effectiveness of environmental sanitation in the control of Dengue for the academic year 2018-2019 will be commenced on 19/10/19 for all the batches. Hence request all the interested candidates to register for the seminar.

Course Name	Schedule	Venue	Resource Person
Assessment of the effectiveness sanitation in the control of Dengue	19/10/2019	SEMINAR HALL	Dr.S.Saranya Sekar Dr.N.Nandha Kumar

All the above mentioned students must enrol and actively participate in the course without fail.

NOTE: Certificates should be issued to all the students after completion of the course and examination.

ABOUT THE TOPIC

ASSESSMENT OF THE EFFECTIVENESS OF ENVIRONMENTAL SANITATION IN CONTROL OF DENGUE

Introduction

Dengue is among the most important mosquito-borne diseases, with more than half of the world's population at risk of infection in dengue endemic countries. Environmental management, which includes any activities that involve environmental modification, environmental manipulation and changes to human behaviour have been used to mitigate the risk of dengue transmission

Methods and analyses

We will conduct a systematic review of intervention that assess the effect of environmental management on the incidence of dengue and/or entomological indices. We will include any studies that include intervention through environmental management for dengue control, involving environmental modification, environmental manipulation and changes to human behaviour.

Ethics and dissemination

We will register this systematic review with the National Medical Research Register, Ministry of Health Malaysia. This protocol also had been registered with the PROSPERO. No ethical approval is necessary, as there will be no collection of primary data.

Types of interventions

We will be looking specifically at these three types of interventions:

1. Environmental modification: Involves long-lasting physical transformations to reduce vector larval habitat.
2. Environmental manipulation: Temporary changes to vector habitats that involves the management of essential containers.
3. Human behaviour: Changes in human behaviour that involves actions to reduce human-vector contact.
