On AUGUST 10th, 2017, the Department of Pharmaceutical Chemistry at JKKMMRF's Sampoorani Ammal College of Pharmacy held a workshop on Trade Secrets of Pharmaceutical Preparation in the Seminar hall. The workshop was attended by 400 students and was certified by the college.

The workshop began with an introduction to Trade Secrets of Pharmaceutical Preparations and its importance in research studies. The speaker discussed the different types of Trade Secrets, including structured, semi-structured, and unstructured, and the pros and cons of each type.

The speaker also covered the steps involved in designing a questionnaire, including defining the research objectives, identifying the target population, selecting the questionnaire format, and writing and pretesting the questions.

The students participated actively in the workshop, asking questions and engaging in discussions. They also had the opportunity to practice designing their own questionnaires and received feedback from the speaker.

Overall, the workshop was well-received by the students and provided them with valuable knowledge and skills in questionnaire design. The Department of Pharmacy Practice at JkkMMRF'sSampoorniammal College of Pharmacy is committed to providing high-quality education and training to its students and plans to hold similar workshops in the future.

ABOUT THE TOPIC:

TRADE SECRETS OF PHARMACEUTICAL PREPARATIONS

Trade Secrets encompass both technical information, Such as Information concerning manufacturing process, Pharmaceutical test data, Design and drawing of computer programs, and commercial informations, such as distribution methods, List of Suppliers and Clients, and advertising strategies. The major factors of trade secrets of pharmaceutical preparations are The extent to which the information is known outside the business, The extent to which it is known by employees and other involved in the business, The extent of measures taken to safeguard the secrecy of the information.

Examples of Trade Secrets of Pharmaceutical Preparations can include Engineering information, Methods, Processes and Know-How, Tolerances and formulas, Business and financial information, Computer Programs and Related informations, Budgets, etc.,.

The Components of Trade Secrets of Pharmaceutical Preparations are **Information, Economic Value from not being generally Known by others and Reasonable efforts have been taken to Protect the trade Secret.**

One of the main advantage of Trade secrets of Pharmaceutical Preparation is that it provides **Indefinite Future Protection.** Unlike the 20 years time limit that underlies the protection granted to a patent holder, there is no definite time limit placed on the protection granted to a trade secret owner.
