On Mar.09.2022 and Mar.10.2022, the Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy held a seminar on Current scope of Siddha formulations in the Seminar hall. The seminar was attended by 340 students and was certified by the college.

The seminar began with an introduction to Current scope of Siddha formulations and its importance Covid pandemic situation. The speaker discussed the different types of Formulations that played a vital role in treatment of Covid virus diseases.

The speaker also covered the steps involved in Formulation of various forms of dosage forms and its appropriate usage in the treatment of infectious viral diseases

The students participated actively in the seminar, asking questions and engaging in discussions, received feedback from the speaker.

Overall, the seminar was well-received by the students and provided them with valuable knowledge and skills in enforcement of IP rights. The Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy is committed to providing high-quality education and training to its students and plans to hold similar seminars in the future.

## DEPARTMENT OF PHARMACOGNOSY

### ABOUT THE COURSE

The recent outbreak of COVID-19 is attributed to Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2). This viral disease is rapidly spreading across the globe, including India. The mainstay in managing the disease is supportive care, nutrition, and preventing further progression in the absence of proven antiviral drugs. Currently two vaccines Covishield and Covaxin are administered in India. Long-term plans of developing most reliable mRNA-based vaccines are also underway for the future method of prophylaxis. The Siddha system of medicine's holistic approach emphasizes lifestyle modification, prophylactic interventions, and dietary management to boost the host immunity and treatment with herbal medicines and higher-order medicines as the case may be.

The Siddha medical system is a comprehensive traditional medicinal system with its origin in India's southern part. It has now started spreading its roots across the globe. The immune-boosting food and medicines are available in plenty in the Siddha system of medicine. Though Siddha medicine does not deal with coronavirus directly, there is a mention about the infectious diseases in Siddha classics Guru naadi, which clearly scraps out the etiology of diseases. The symptoms of COVID-19 are congruent with Kapha suram/lya suram mentioned by the sage Yugi in his textbook Yugi Vaidhya Chindhamani (Mudhaliyar, 2004). According to Siddha's theory, Vali or vatham (Airy), Azhal or pitham (Fiery), Iyam or kapham (Watery/cool) are the three humors which are the life constituents of the human body. Predominantly Vatham is found between the perineum and umbilicus, pitham is present from the umbilicus to the chest and predominant Kapham exists from the chest to the top of the head. The ratio between the three humors Vali, Azhal, and Iyam exists in the proportion of 4:2:1 in a healthy individual. Any imbalance in this ratio will result in disease.

Prevention is better than cure is a Siddha doctrine. "Food is medicine, and medicine is food" is the prime principle of the Siddha system of medicine. This reveals the importance given to a nutritious diet in boosting immunity and disease prevention. Rules for healthy living are stated in Siddha literature, which will prevent the disease entry when adhered. According to the Siddha classical textbook, Pathartha Guna Chindhamani, one should consume boiled water, diluted buttermilk, and melted ghee. Additionally, Overindulgence in sex should be avoided. Drinking cow's milk, bathing in hot water following oleation should be practiced for a healthy living.
