**Introduction:**

The workshop on Innovation and Technological entrepreneurship was held on September 19 2018 at JKKMMRF's Annai JKK Sampoorani Ammal College of Pharmacy. The workshop was organized by the Department of Pharmacy, and a total of 350 students participated. The purpose of the workshop was to provide attendees with an introduction to the basics of qualitative research and to introduce them to the use of Innovation and technological Entrepreneurship software as a tool for analyzing and organizing qualitative data. At the end of the workshop, all attendees received a certificate of completion.

**Objectives:**

The main objectives of the workshop were to:

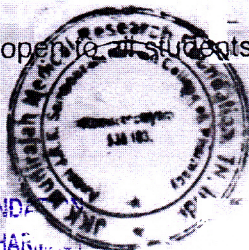

- Introduce attendees to the principles and practices of qualitative research
- Provide an overview of the different types of qualitative data and how to collect and analyze them
- Introduce attendees to the use of Innovation and technological Entrepreneurship software for organizing and analyzing qualitative data
- Provide attendees with the opportunity to practice using Innovation and Technological Entrepreneurship through hands-on exercises

**Participants:**

The workshop was open to all students at JKKMMRF's Annai JKK Sampoorani

Ammal College of Pharmacy, and a total of 350 students participated. The attendees represented a range of academic disciplines within the field of pharmacy, including pharmacology, pharmaceutical chemistry, and pharmacy practice. Most of the attendees had some prior experience with qualitative research, but some were new to the field.

**Format:**

The workshop was structured as a combination of lectures, group discussions, and hands-on exercises. The lectures were led by an experienced researcher with expertise in Innovation and Technological Entrepreneurship, and the hands-on exercises were led by a trained facilitator. The workshop was held over two full days, with breaks in between to allow attendees to rest and ask questions.

**Content:**

The workshop covered a range of topics related to Innovation and Technological Entrepreneurship. On the first day, attendees learned about the different types of qualitative data, including interview transcripts, focus group transcripts, and observational field notes. They also learned about the different approaches to analyzing qualitative data, including coding, memoing, and categorizing. On the second day, attendees learned how to use Innovation and Technological Entrepreneurship to organize and analyze their qualitative data, including importing data, coding text, and creating visualizations.

**Evaluation:**

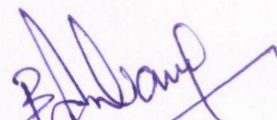

At the end of the workshop, attendees were asked to complete a short evaluation form to provide feedback on the workshop. Overall, the evaluations were very positive, with most attendees rating the workshop as "excellent" or "good." Attendees commented that the lectures were clear and well-organized, and that the hands-on exercises were helpful in providing a practical understanding of Innovation and Technological Entrepreneurship.

**Conclusion:**

Overall, the workshop on Innovation and Technological Entrepreneurship was a success. A total of 350 students participated, and all attendees received a certificate of completion. The positive feedback from attendees suggests that the workshop met its objectives and was well-received by the participants. The skills and knowledge gained from the workshop will be valuable to the students as they continue their studies and pursue careers in the field of pharmacy.

**Recommendations:**

Based on the evaluations and feedback from attendees, we recommend offering similar workshops in the future to continue to build capacity in Innovation and Technological Entrepreneurship at JKKMMRF's AnnaiSampoورانiAmmal College of Pharmacy. It may also be helpful to consider offering more advanced workshops for those who have already completed the basic workshop and are looking to further develop their skills.

## ABOUT THE TOPIC

### **INNOVATION AND TECHNOLOGICAL ENTREPRENEURSHIP**

Innovation is the specific tool of entrepreneurs, the means by which they exploit change as an opportunity for a different business or a different service. It is capable of being presented as a discipline, capable of being learned, capable of being practiced.

Entrepreneurs need to search purposefully for the sources of innovation, the change and their symptoms that indicate opportunities for a successful innovation.

Technology entrepreneurship – or tech entrepreneurship – is something every aspiring entrepreneur needs to know about.

We all know facebook, twitter and google – some of the great examples of tech entrepreneurship. As a result of all of this, not only do we get amazing tech-businesses, but we also see impact in other industries too.
