NATIONAL SERVICE SCHEMES (NSS)

Students are urged to participate in extracurricular activities in order to fulfil the institution's goal and vision statements. Through organizations like NSS, clubs, and societies, students are encouraged to participate in extracurricular activities with the goal of promoting the individual's holistic development.

The institution has an active NSS wing that works on projects like keeping the college clean and green, performing community service by arranging blood donation drives and other events to raise awareness of literacy and cleanliness among others.

The pupils are conscious of their need to return to society and the environment what they have taken. Volunteer student members of our NSS Unit engage in social service projects like special camps in adopted communities, work with orphanages, tree planting, and flood relief camps.

All of these courses foster in the students a feeling of accountability, honesty, and human values that will help them fulfil the institution's vision and goal.

The relief camp for the Kerala floods saw significant participation from the staff and students. Our pupils gathered supplies from the neighborhood community for the needy.
