- Fostering an environment that promotes the safe, efficacious, and cost-effective use of medications.
- Improving the medication use process to enhance continuity of care.
- Recruiting and retaining highly qualified pharmacists and supportive personnel.
- Recognizing that the pharmacy staff is our most important resource.

Education: Fostering an environment designed to advance knowledge of the rational use of medications.

- Educating patients and healthcare professionals on the safe use of medications.
- Providing health education programs to the community to prevent disease and promote public health.
- Ensuring high quality care through the education of students, residents, fellows, and staff.

Research: Making sound decisions supported by evidence based medicine through research on medication use and patient safety.

- Developing and conducting research to improve the safety and efficiency of the medication use system.
- Utilizing research methods to identify the most cost effective use of medications.
- Initiating and supporting interdisciplinary collaborative research.

VISION

To be nationally renowned for excellence in pharmacology research and Scholarship, with the ultimate goal of improving human health.

MISSION

- To improve the disciplines of Pharmacology and toxicology span basic mechanisms of drug discovery, action, metabolism, and distribution, along with studies of the therapeutic Action or adverse effects that chemicals/drugs have on biological systems.
- To integrate diverse basics and translational scientific investigations around common research interests, providing unique capabilities to promote the discovery and development of new therapeutics and address the impact of environmental toxins.
- To provide a dynamic and diverse academic environment that fosters innovative, ground-breaking research in basic and clinical pharmacology, therapeutics and toxicology.
- To promote strong evidence-based teaching and training for our students and trainees.
- To acquire new expertise in toxicology and drug metabolism.
- To promote interdisciplinary graduate and medical pharmacology education.
