Strategic Goals and Development Plans

Strategic plans are based on the vision and mission of the institute and it provides directions and helps in decision making to achieve predetermined goals of the institute. The short term goals and long term goals are included in the strategic plan which mainly focus academic excellence quality of work, research in future development" and self learning etc.

This strategic document highlights performance from the previous Strategic Plan, discussed about issues and challenges in the pharmaceutical field in Malaysia, and envisioned the way forward as the organization moves towards a post-crisis environment and confronts a new era of delivering services to the people.

Pharmaceutical Services Programme Strategic Plan 2021-2025 Pharmaceutical Services

Programme Strategic Plan 2021-2025 outlines a four-year strategic direction with main focus to:

- Introduce customers to better service experience and patients to applied community care
- Empower knowledge in medicines information and quality use of medicines
- Enable convenience and accessibility to pharmacy services through technology and innovation
- Strengthen legislation and regulation to safeguard medicinal products marketed to consumers
- Reform organizational structure for further performance and efficiency of the Programme
- Ensure affordability and reasonable pricing of medicines • Develop training models and professional pathways to produce competent workforce
