### **FEEDBACK PROCESS**

#### **Introduction**

The college promptly collects and assesses the feedback from its stakeholders viz. parents, alumni, students and teachers. A format is prepared and distributed among all the stakeholders on different occasions. After an expert analysis the matters are discussed among the members of the faculty before communicating it to the authorities concerned.

#### **Parental Feedback**

The parents of the students of this college are keen in the studies of their children. They take good care in giving creative and suitable feedback on the curriculum followed by the students. The Institution collects feedback from parents on the occasion of the annual PTA meetings well as in the Department-wise PTA meetings. The feedback format is formulated to analyse the size of the syllabus and the work load on students, compatibility of the programme with the preceding courses, extra reading demanded from the students, availability of text books and reference materials, flexibility of the syllabus, availability of e-resources, proportionality of the syllabus to the hours available, application level of the text books, support for further studies and innovations of course contents.

ANNAI JKK SAMPOORANI AMMAL COLLEGE OF PHARMACY,  
ETHIRMEDU, KOMARAPALAYAM - 638 183,  
NAMAKKAL DISTRICT, TAMILNADU.

The parental feedback is collected in the form of questionnaire with a six grade rating scale. Most of the parents are happy with the course content but many were of the opinion that the work load on students is really heavy and they have to go through the syllabus in a rush before the examination. Also there came a comment that the present curriculum gives scope for only an exam oriented way of studies as the students get little time to master their subject. Parents informally requested the introduction of uniforms to ensure uniformity among the students of all classes. So the college took up the task of distributing stitched uniforms to the students and this has fixed a proper dress code for the students.

### **Alumni**

Feedbacks from Alumni are usually taken on the Annual Alumni meeting. Feedback forms are kept in the departments for collecting feedback from the alumni when they visit the departments or on departmental alumni meetings. To evaluate the learning atmosphere provided to the students a feedback on the institution is also taken from all the alumni where they assessed the quality of teachers, promotions of co-curricular and extension activities, general administration of the college, admission procedure, library, supporting services and other infrastructural facilities. Almost all the students were happy with the facilities and ambience they had in the college.

### **Teachers**

Feedback were duly collected from teachers also. As a community that keeps in touch with the different syllabus revisions and the student standards time to time, the most expert and resourceful suggestions were obtained from them. It is notable that teachers from most of the departments were satisfied with the density of the curriculum offered by the university but most students disagree with that as they hesitated to mark the parameters given to them as excellent.

## 2. FEEDBACK MECHANISM:

Feedback obtained periodically from various stakeholders helps alleviate the academic concerns motivates the students and faculty to improve their performance. Feedback is taken into consideration and corrective measures/improvements are made by the head of the departments and Principal. If necessary, these are forwarded to the management for further action. Feedback from various sources has significantly improved academic activities, effective usage of teaching-learning resources, and students' professional career advancements.

### **Feedback on course content delivery and outcome-based education:**

Course feedback is generated from the theory and laboratory courses in every semester and final year students complete the program exit survey. This is gathered from two different approaches that are considered for soliciting the student feedback such as immediate feedback through the meeting, and surveys and questionnaires for students to fill out the forms digitally. The following table provides an overview of two different approaches to gathering student feedback:

#### Feedback Type Meetings/survey forms Collective / Immediate meetings

- Mentor-Mentee Meeting
- Class In-charge Meeting
- Class representative Meeting
- Course content coverage Monitoring
- Course end semester Meeting

#### Survey and Questionnaire

- Feedback on Faculty
- Feedback on course outcomes
- Course end Survey

### POLICY ON FEEDBACK BASED GOVERNANCE

- Feedback on curriculum gap and enrichment (from students, faculty, parents, alumni, employers and stakeholders)
- Feedback on Teaching – learning imparted by faculty for each subject at the middle of the semester and end of the semester (from the students attending the class)
- Feedback taken on the syllabus coverage, overall teaching learning process, examination and evaluation support systems at class committee meetings
- Feedback from outgoing students, each year on infrastructure, academics and facilities.
- The structure of the feedback form is 5 points scale (Excellent, very good, good, fair, need to improve)
- The feedback is consolidated and presented as HODs meeting with the principal. In the HOD meeting, feedback is analyzed and corrective actions are taken where needed.

### E-GOVERNANCE POLICY

#### Utilization of Funds

An annual budget is prepared to ensure optimal utilization of financial resources, based on the estimates received from the departments and functional units of the Institute. The amount is sanctioned by the Managing Committee/ Board of Governors. Monthly Statements are prepared for Income and expenditure. Audit is performed periodically to ensure that the budget is optimally utilized for the purpose it is intended. The resources in the form of facilities and equipment are maintained to ensure optimum performance. Annual maintenance contract is in position for the equipment and software.

#### **Objective:**

Self-assessment and self-reflection is a powerful way to enhance a student's learning experience. It plays an important role in teaching students not just what to learn, but also how they learn and what they can do to improve their learning outcomes. By incorporating tasks that require students to critically reflect on their work, processes and learning style; they are given the opportunity to identify gaps in their knowledge or skill set and achieve greater autonomy and deeper learning and meta cognition.

#### **Learning outcomes:**

- Students can able to develop self-learning, self-growth, and an opportunity for conceptualization, categorization.
- Provides students with an opportunity to self-evaluate, or make judgments about their learning process and products of learning.
- It helps to identify student inconsistencies, prompting to make small but significant changes that trigger profound shifts life and helps to build positive momentum.
- Self-reflection has many other purported benefits, from boosting productivity to helps to develop sense of identity
- The students were actively participated in these program and made themselves responsible.

#### **Objective**

Language objectives are lesson objectives that are specifically designed to promote students' language development through all four language domains: reading, writing, speaking and listening.

#### **Learning Outcomes**

- Context provides meaning and clarity to the intended message.
- Context clues in a literary work create a relationship between the writer and reader, giving a deeper understanding of the intent and direction of the writing.
