In this contract the term "e-waste" is defined as electrical and electronic equipment, whole or in part discarded as waste that have become essentially reached the end of their useful life.

E-waste also contains toxic and hazardous materials in our computer and other pharmacy laboratory chemicals including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, and other lab related items which have the potential to leach into our soil and water. It also includes the items used in all labs of the college.

For the purpose of this Agreement, the term "Waste Material" shall mean any and all electrical, electronic and hazardous waste material. To this agreement, the term "Hazardous Material" shall mean any and all hazardous material (storage devices, acids and chemicals), used in our laboratories for student's practical purpose.

To this agreement, the term "Waste Management Services" is the services that are provided by contractor ARETHA INFOTECH as directed by JKKMMRF's – Annai JKK Sampoorani Ammal College of Pharmacy, including the handling. The charges as agreed between both the parties will be applicable.

Mutually agreed between JKKMMRF's – Annai JKK Sampoorani Ammal College of Pharmacy and Ms.ARETHA INFOTECH, from 01-08-2022.

7.1.3. WASTE MANAGEMENT STEPS

Degradable and non-degradable Policy Document

Effective waste management through efficient disposal or recycling is an important process for any organization as it impacts the health and environment of not only those who work and live on campus, but also those in the surrounding community. Therefore, providing a healthy and safe environment is our top priority.

E - Waste Management

E-waste from labs is properly collected and is given to the licensed recycler, reused wherever possible, donated, and sold if possible. Non-working computers, monitors, and printers are discarded and scrapped on a systematic basis. Some parts useful for other systems are kept aside for future use. Students are also imparted awareness and education about E- Waste.

Solid Waste Management:

Routine solid waste is daily collected in dustbins at different locations, which are emptied in movable containers and carts, after segregating into different types of bio and non--bio degradable waste and taken to the dumping yard.

A) Biodegradable Solid Waste

In JKKMMRF's Solid waste management is accomplished either by consumption or by outsourcing its collection and disposal to a Village panchayat. Over 20 bins have been provided across the campus for collection of the solid waste generated at different sources in college. These bins are colour coded specific to a category of solid waste:

Green bin - Biodegradable, organic waste like cooked food, vegetables, fruit etc.

Blue bin - Recyclable waste like paper, cartons, cans, metallic items, etc. The non-toxic, biodegradable waste is collected and used for making compost through the Vermicompost process for which pits of size 4m X 4 m have been made in the campus. It takes 6-8 days for a pit to fill and 45 days to convert the biodegradable waste into Vermicompost. The Vermicompost is used in nurseries, agriculture farms, and for research purposes.

B) Non- Biodegradable Solid Waste collection

Collection and disposal of all Non- Biodegradable Solid Waste has been stored in 4m * 4m non-Biodegradable pit in college campus. The college has tied up with the local municipal.

WASTE MANAGEMENT POLICY

Waste management policy articulates promise to reduce its environmental impacts through effective waste management and sustainable practices in converting waste to resources,

The campus strives to realize sustainable and holistic waste management essential and reducing its foot print and providing a safe and healthy work environment for teaching and non-teaching employees, students, visitors and stake holders.

- Committed for obtaining a Zero waste plan thus obtaining its ecofriendly status through the policy of reduce, reuse, and recycle.
- Recycling and reuse - the recyclable material like plastic, metals, paper and other shall be handled over to the external agencies.
- Avoiding and minimizing the generation of waste- organizing awareness program for waste management through various club activities.
- Segregation of solid waste-degradable and non-degradable wastes are suggested to handle over separately segregated into different types of degradable and non-degradable waste and taken to the dumping yard.
- Reducing paper waste through relying more electronic devices at all levels including governance, examinations, admission, and finance. E-governance shall be ensured to implement innovate strategies and these by reduce paper waste in the campus.
- Reduce E-Waste to maximum with proper maintenance before moving on to replace and recycle.

The campus is provided into training on legislation, hazardous, compliance and the policy by conducting waste management awareness programme throughout the year. All the students, faculty, staff members and stake holders are made aware of the policy.
