#### **Objective**

As the name implies, this program aims to help students learn how to speak and write in a manner that is more in line with everyday life rather than using high-level vocabulary. It is the objective of the program to determine how well you understand the language as it is spoken in everyday situations. It focuses on ordinary English rather than high-level English language and provides a variety of assessment tools, including an interactive voice response system (IVR), individualized feedback, and questionnaires.

### Learning outcomes:

The program provides an extremely high level of accuracy in learning the language, and it also gives students an opportunity to study abroad, or to plan to work and stay in countries where English is the primary language. In conclusion, upon completing this program, students will be able to demonstrate their proficiency concerning both spoken and written English, as well as being familiar with the concepts associated with concept formation.

Mrs. S. Sabareswari began the session with enthusiasm and then proceeded with a sequence of interactive activities.
