SEMINAR TITLE –AYURVEDA AND INTELLECTUAL PROPERTY RIGHTS

VENUE: SEMINAR HALL DATED: 28/09/2022

RESOURCE PERSON

Dr. C.S.Kandasamy., M.Pharm., Ph.D.
Karpagham College of Pharmacy, Coimbatore

No. of students enrolled: 380

No. of students certified: 378

No. of students certified in our institution : 64

On Sep.28.2022, the Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy held a seminar on Ayurveda and Intellectual Property Rights in the Seminar hall. The seminar was attended by 380 students and was certified by the college.

The seminar began with an introduction to Ayurveda and Intellectual Property Rights and its importance in Ayurvedic Formulations. The speaker discussed the different types of ayurvedic Formulations and its patenting procedures.

The speaker also covered the steps involved in Development of Herbal Formulations and Traditional Knowledge to Clinical Verification.

The students participated actively in the seminar, asking questions and engaging in discussions, received feedback from the speaker.

Overall, the seminar was well-received by the students and provided them with valuable knowledge and skills in enforcement of IP rights. The Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy is committed to providing high-quality education and training to its students and plans to hold similar seminars in the future.

DEPARTMENT OF PHARMACOGNOSY

ABOUT THE COURSE

Growing awareness of Ayurvedic medicines and formulations has led to several conflicts with western pharmaceutical companies who are taking the lead from Ayurvedic medicines and patenting them in their own name. But as we are all aware that the intellects involved behind constructing this unique science is very much grass rooted in India and the country is responsible for producing the majority of Ayurvedic leads right from the traditional times. An overview of understanding the concept, rules, laws, regulations, present status, controlling authorities with emphasis on its statistical inference to understand the future challenges of Intellectual Property Rights and how to restore our scientific knowledge to promote ideas and make them acceptable without financial constraints. Evaluating and reviewing the terms, criteria's included in IPR. The outcome is pretty much predictable that we need rules, proper structured laws to protect our patents, our natural resources and for proper understanding of IPR courses conducted on it should be increased. Considering the statistical aspects the execution of IPR has decreased over the years due to lack of systematic indulgence in traditional system of medicine. The number of governing bodies included has expensive and strict vigilances that decrease the promotion of ideas from the mass people as they are very few governing bodies. A proper council easily understandable and approachable is of utmost importance.

World Intellectual Property Organization (WIPO) has been sensitive to these concerns. At a conference held in October 1998, under the aegis of the WIPO an agenda for the future of IPR in the field of traditional medicines was prepared, which prioritized activities in this area, namely, development of standards for the availability, scope and use of IPRs on traditional medicine in Asian countries, systematic documentation of traditional medicine for protection purposes, regional and inter-regional information exchange and compilation of the requisite databases, etc. This agenda needs to be moved forward

Ayurveda is the pioneer of medical science. Over the years the knowledge is being subsided due to lack of literature thus leading to improper understanding of the science. In recent years Ayurveda has provided miraculous lead compounds that has shown tremendous therapeutic efficacy with minimum side effects as possible. Thus to preserve, conserve and deliver this science to the world Intellectual Property Right must be maintained until the compounds are validated by experts dealing with it
