Course Description:

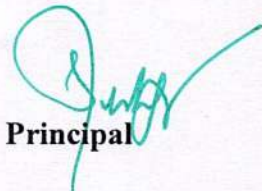

This course provides healthcare professionals with a comprehensive understanding of the principles and practices related to the safe, effective, and judicious use of antibiotics in healthcare settings. Participants will explore key concepts such as antimicrobial stewardship, mechanisms of antibiotic resistance, infection prevention strategies, and the clinical application of antibiotics in treating common bacterial infection.

Course objective:

- ✓ Understand the principles of antimicrobial stewardship and its role in combating antibiotic resistance.
- ✓ Identify appropriate indications for antibiotic use based on evidence-based guidelines.
- ✓ Differentiate between bacterial and viral infections to reduce unnecessary antibiotic prescriptions.
