6. what are your advice for further improvements on our students to meet your company needs? *

Create a culture of true open communication, and productivity will improve as a result of a more positive office morale. Encourage communication, collaboration, and feedback between departments, as well as between management and staff. This will liven up the stream of ideas, resulting in a more productive team overall.

7. About our Placement cell: *

Placement cells help students know about the industry they are getting into. They will be heading out into the professional world with a lot more awareness and preparation. This is, of course, the main aim of a placement cell – getting students placed in good companies, where they can start their careers.
