DEPARTMENT OF PHARMACEUTICAL CHEMISTRY

REPORT

SEMINAR-RESEARCH DESIGNS & METHODOLOGIES RELATED TO REGULATORY AFFAIRS

VENUE: SEMINAR HALL

DATED: 4/4/18 -5/4/18

RESOURCE PERSONS:

1. Dr.JAGADEESWARAN, MOT.,PhD

2.Mr.MOHANRAJ.,MOT

JKKMMRF'S

COLLEGE OF OCCUPATIONAL THERAPY, KOMARAPALAYAM.

No. of students enrolled: 350

No. of students certified: 350

No. of students certified in our institution :35

Introduction:

The seminar on qualitative research with Research designs & Methodologies related to Regulatory Affairs was held on April 04th and 05th, 2018 at JKKMMRF's Annai Sampoorani Ammal College of Pharmacy. The seminar was organized by the Department of Pharmacy, and a total of 350 students participated. The purpose of the seminar was to provide attendees with an introduction to the basics of qualitative research and to introduce them to the use of Research designs & Methodologies related to Regulatory Affairs as a tool for analyzing and organizing qualitative data. At the end of the seminar, all attendees received a certificate of completion.

Objectives:

The main objectives of the seminar were to:

- Introduce Research design is a plan to answer your research Question. A research method is a strategy used to Implement that plan.
- Provide an overview of the different types of qualitative data and how to collect and analyze them
- Introduce attendees to the use of Research designs & Methodologies related to Regulatory affairs for organizing and analyzing qualitative data
- Provide attendees with the opportunity to practice using through hands-on exercises .

Respected Sir,

Subject: **Letter for requesting Permission to Conduct seminar regarding:-**

We are writing this letter to request permission to conduct a seminar in the Seminar hall for two days, on 04/04/18 and 05/04/18. We wish to conduct the seminar on **Research designs & Methodologies related to Regulatory affairs**. We believe that this will be a very informative session that many students will wish to attend.

We request you to kindly permit to conduct training program as this would be a great opportunity for Students to learn all about **RESEARCH DESIGNS & METHODOLOGIES RELATED TO REGULATORY AFFAIRS** that would help to shape the students.

Looking forward for your approval .

Thank you.

Circular

This is to inform all the students of our college that the seminar on Research designs & Methodologies related to Regulatory Affairs for the academic year 2018-2019 will be commenced on 04/04/2018 and 05/04/2018 for all the batches. Hence request all the interested candidates to register for the seminar.

Course Name	Schedule	Venue	Resource Person
Research designs & Methodologies related to Regulatory Affairs	04/04/2018 to 05/04/2018	SEMINAR HALL	<i>Dr. Jagadeeswaran Mr. Mohanraj</i>

All the above mentioned students must enrol and actively participate in the course without fail. **NOTE:** Certificates should be issued to all the students after completion of the course and examination.

ABOUT THE TOPIC

RESEARCH DESIGN AND METHOLOGIES RELATED TO REGULATORY AFFAIRS

Introduction to Research Methodologies Used in Pharmacy Practice

The mission of pharmacy profession and the role of pharmacists in healthcare have evolved toward patient-centered care in the last few decades. Pharmacists with their expertise in drug therapy and accessibility to the public have unprecedented opportunities to assume increasing responsibility for direct patient care (Bond, 2006). New cognitive pharmaceutical services and new roles for pharmacists continue to emerge.

Core Quantitative and Qualitative Approaches Used in Pharmacy Practice Research

Traditionally, core quantitative approaches used in pharmacy practice research include nonexperiments, quasi-experimental designs, and true experimental designs such as prospective randomized controlled intervention trials. Nonexperiments also include observational study designs that are often described as pharmacoepidemiologic study designs such as case-control study, cohort study, nested case-control study, and cross-sectional study. In recent years, conventional qualitative approaches and their philosophical paradigms are increasingly been used in pharmacy. These include the five qualitative approaches to inquiry: narrative research, phenomenology, grounded theory, ethnography, and case study.

Study Design

Pharmacy practice researchers begin by conception of a research idea or identifying a research question and defining a hypothesis based on the question. The researcher then selects a study design that will be suitable to answer the research question
