The complement system is part of your body's immune system that cleans up damaged cells, helps your body heal after an injury or an infection and destroys microscopic organisms like bacteria that make you sick. Your complement system is the front line of defense for your immune system.

SEMINAR –COMPLEMENT SYSTEM AN OVERVIEW

VENUE: SEMINAR HALL DATED: 10/09/2021

RESOURCE PERSON

Dr. N. KIRUTHIGA, M.PHARM, PH.D

KMCH COLLEGE OF PHARMACY
COIMBATORE.

No. of students enrolled: 350

No. of students certified: 350

No. of students certified in our Institution :34

Introduction:

The seminar on complement system an overview was held on 10th September, 2021 at JKKMMRF's Annai JKK Sampoorani Ammal College of Pharmacy. The seminar was organized by the Department of Pharmacy, and a total of 350 students participated. The purpose of the seminar was to provide attendees with an introduction to the basics of qualitative research and to introduce them to the use of complement system software as a tool for analyzing and organizing qualitative data. At the end of the seminar, all attendees received a certificate of completion.

Objectives:

The main objectives of the seminar were to:

The principle function of the complement system is protection of the host from infection/inflammation by recruiting and enhancing phagocytosis by innate immune cells, leading to lysis of the target cells

Participants:

The seminar was open to all students at JKKMMRF's Annai JKK Sampoorani Ammal College of Pharmacy, and a total of 350 students participated. The attendees represented a range of academic disciplines within the field of pharmacy, including pharmacology, pharmaceutical chemistry, and pharmacy practice. Most of the attendees

Dr. N.SENTHILKUMAR,
PRINCIPAL

Dr. N.SENTHILKUMAR,
PRINCIPAL

JKK MUNIRAJAH MEDICAL RESEARCH FOUNDATION
ANNAI JKK SAMPOORANI AMMAL COLLEGE OF PHARMACY
ETHIRMEDU, KOMARAPALAYAM - 638 183.
NAMAKKAL DISTRICT, TAMILNADU, INDIA.

had some prior experience with qualitative research, but some were new to the field.

Format:

The seminar was structured as a combination of lectures, group discussions, and hands-on exercises. The lectures were led by an experienced researcher with expertise in complement system an overview, and the hands-on exercises were led by a trained facilitator. The seminar was held over one full days, with breaks in between to allow attendees to rest and ask questions.

Content:

The seminar covered a range of topics related to complement system. On the first day, attendees learned about the different types of qualitative data, including interview transcripts, focus group transcripts, and observational field notes. They also learned about the different approaches to analyzing qualitative data, including coding, memory, and categorizing. On the second day, attendees learned how to know complement system to organize and analyze their qualitative data, including importing data, coding text, and creating visualizations.

Evaluation:

At the end of the seminar, attendees were asked to complete a short evaluation form to provide feedback on the seminar. Overall, the evaluations were very positive, with most attendees rating the workshop as "excellent" or "good." Attendees commented that the lectures were clear and well-organized, and that the hands-on exercises were helpful in providing a practical understanding complement system.

Conclusion:

Overall, the seminar on complement system was a success. A total of 350 students participated, and all attendees received a certificate of completion. The positive feedback from attendees suggests that the workshop met its objectives and was well-received by the participants. The skills and knowledge gained from the seminar will be valuable to the students as they continue their studies and pursue careers in the field of pharmacy.

Recommendations:

Based on the evaluations and feedback from attendees, we recommend offering similar seminar in the future to continue to build capacity in complement system at JKKMMRF's Annai JKK Sampoorani Ammal College of Pharmacy. It may also be helpful to consider offering more advanced seminar for those who have already completed the basic workshop and are looking to further develop their skills.

Respected Sir,

Subject: **Letter for requesting Permission to Conduct seminar regarding:-**

We Are writing this letter to request permission to conduct a seminar in the Seminar hall for two days, on **10/09/2021**. We wish to conduct the workshop on **complement system an overview**. We believe that this will be a very informative session that many students will wish to attend.

We request you to kindly permit to conduct training program as this would be a great opportunity for Students to learn all about complement system an overview that would help to shape the students.

Looking forward for your approval.

Thank you

**Dr. N. SENTHILKUMAR,
PRINCIPAL,**

Circular

This is to inform all the students of our college that the seminar on with complement system an overview for the academic year sep 2021 will be commenced on 10/09/2021 for all the batches. Hence request all the interested candidates to register for the seminar.

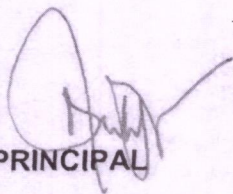

Course Name	Schedule	Venue	Resource Person
Complement system an overview	10/09/2021	SEMINAR HALL	Dr .N. KIRUTHIGA

All the above mentioned students must enrol and actively participate in the course without fail.

NOTE: Certificates should be issued to all the students after completion of the course and examination.

ABOUT THE TOPIC

COMPLEMENT SYSTEM-AN OVERVIEW

INTRODUCTION

The Symposium is rooted in a mandate to understand intellectual property rights (IPR) challenges and best practices, expand innovation and entrepreneurial activity in India, and connect Indian and US businesses. Its primary objectives are to discuss intellectual property rights, intellectual property protection strategies, the impact of current case law, the impact of PTAB decisions, and the importance of intellectual property in innovation economies. The program will also enable connections between individuals and businesses in the United States and India and will produce a white paper that will discuss intellectual property protection issues in the context of US-India relations. Through connection and collaboration, the Symposium will ultimately serve a larger goal: facilitating the exchange of ideas and advancing education on the role of intellectual property in economic and technological development.

The complement system is part of your body's immune system that cleans up damaged cells, helps your body heal after an injury or an infection and destroys microscopic organisms like bacteria that make you sick. Your complement system is the front line of defense for your immune system.

FUNCTION OF COMPLEMENT SYSTEM

The complement system has four major function, including lysis of infectious organisms, activation of inflammation, opsonization and immune clearance.

ALTERNATIVE COMPLEMENT PATHWAY

The alternative pathway is a type of cascade reaction of the complement system and is a component of the innate immune system, a natural defense against infections.

REGULATION

Complement Receptor 1 (CR1 or CD35) and DAF (decay accelerating factor also known as CD55) compete with Factor B in binding with C3b on the cell surface and can even remove Bb from an already formed C3bBb complex

The formation of a C3 convertase can also be prevented when a plasma protease called complement factor I cleaves C3b into its inactive form, iC3b. Factor I requires a C3b-binding protein cofactor such as complement factor H, CR1, or Membrane Cofactor of Proteolysis (MCP or CD46)
