Seminar on

Current challenges in quality control of Herbal Drugs

RESOURCE PERSONS

Dr.K.Vasuki M.Paharm., Ph.D

Swamy Vivekanandha College of Pharmacy,
Namakkal.

Dr. E. Thilagam ,M.PHARM,Ph.D

JKKMMRF's Annai JKK Sampoorani Ammal
College of Pharmacy, Komarapalayam.

No. of students enrolled: 300

No. of students certified: 300

No. of students certified in our institution: 39

On Sep.06.2017 – Sep.07.2017, the Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy held a seminar on Current challenges in quality control of Herbal Drug in the Seminar hall. The seminar was attended by 300 students and was certified by the college.

The seminar began with an introduction to Current challenges in quality control of Herbal Drugs and its importance in research studies. The speaker discussed the various physical, chemical, and geographical aspects which contribute to the quality of these materials.

The speaker also covered the The process where the qualitative and quantitative values of herbs are measured against the prescribed or set standards and parameters is standardization.

The students participated actively in the seminar, asking questions and engaging in discussions and received feedback from the speaker.

Overall, the seminar was well-received by the students and provided them with valuable knowledge and skills in enforcement of IP rights. The Department of Pharmacognosy at JKKMMRF's Sampoorani Ammal College of Pharmacy is committed to providing high-quality education and training to its students and plans to hold similar seminars in the future.

Respected Sir,

Subject: Requesting Permission to conduct Seminar -regarding

With due respect, we humbly request you to grand permission to conduct a Seminar in the Seminar Hall during **06/09/2017 and 07/09/2017** on **Current challenges in quality control of Herbal Drugs**. It will be a very informative course for our students.

Kindly do the needful. We will be grateful to you sir.

Thank you

Dr. N. Senthilkumar
Yours sincerely

CIRCULAR

DEPARTMENT OF PHARMACOGNOSY

2017-2018

CIRCULAR

This is inform to the Students that the following Seminar program can be conducted by the Department of Pharmacognosy, JKKMMRF's ANNAI JKK SAMPOORANI AMMAL COLLEGE OF PHARMACY and it will be commenced as per the schedule:

Course Name	Schedule	Venue	Resource Person
Seminar on Current challenges in quality control of Herbal Drugs	06/09/2017 to 07/09/2017	SEMINAR HALL	Dr. E. Thilagam & DR. K. Vasuki

All the above mentioned students must enrol and actively participate in the course without fail.

NOTE: Certificates should be issued to all the students after completion of the course and examination.

ABOUT THE COURSE

The quality of the herbals is altered by various physical, chemical, and geographical aspects which contribute to the quality of these materials. Apart from that, adulteration is also an increasing concern when it comes to herbal material quality. Various chemical and phytochemical test, analytical techniques, and hyphenated analytical techniques are used for determining the quality aspects of the herbal materials in the herbal pharmaceuticals. This is leading to a decrease in the quality standards of the herbal products by intentional and sometimes unintentional adulteration, spurious drugs, substitution of drugs, and many other ways which are prone to decreasing the quality of the herbal materials which are marketed and consumed for the healthy survival. But instead of this, it is leading to hazardous effects on the health of the consumers. So it is very much required to control the quality standards of the herbal drugs and products for the betterment of the mankind.

Standardization and the phytochemicals investigation are carried out; apart from these, there are various quality control tools which are used to assure the quality aspects of the herbals. Both qualitative and quantitative measures are required for the quality assurance of them. Different techniques like UV (ultraviolet) and IR (infrared) are mostly used for the qualitative aspects whereas HP-TLC (high-performance thin-layer chromatography), HP-LC (high-pressure/performance liquid chromatography), SFC (supercritical fluid chromatography), thermal analysis, ICP-MS (inductively coupled plasma-mass spectroscopy), LC-MS (liquid chromatography-mass spectroscopy), and GC-MS (gas chromatography-mass spectroscopy) are used for the quantitative estimation of the herbal products for quality control assessment.

As there is a growing demand for herbal pharmaceuticals, there is a need to assure their quality. Almost about 80% of the population is depending on the herbs for the treatment, cure, and prevention. So the different tools and techniques must be implied to verify and insure the required quality to be incorporated into the herbal material and products.

The process where the qualitative and quantitative values of herbs are measured against the prescribed or set standards and parameters is standardization. In the case of the herbal products which are part of traditional medicine system, the novel formulations developed are required to be standardized for safety, efficacy, and potency. It is required that the various techniques are used for the quality control examination of the herbs, which can be regulated to gain the required quality products by setting proper norms. And this in turn will provide the safer use and effective treatment and required potency of the products which will benefit mankind and society by providing means of wellbeing.
